PROGRAM REPORT	
Title of the Event	Awareness Program On Cyber Security
Event start Date	08-1--2021
Event End Date	08-1--2021
Description	Awareness Program On Ozone Layer Depletion was conducted with a rally at Osmania university. The program aims to raise awareness about the importance of cyber security and equip the people of the society with the necessary knowledge and skills to protect themselves and their organizations from cyber threats. Students and local residents of the area participated in the event.

On 08-1--2021, Anwarul Uloom College Of Business Management organized Awareness program on Cyber Security with a rally at Osmania university. With the rapid advancement of technology, the use of digital platforms for communication, financial transactions, and other activities has become commonplace. However, this increased reliance on technology has also led to an increased vulnerability to cyber threats. Cyber security refers to the measures taken to protect electronic systems, networks, and devices from unauthorized access, attack, or damage.

- The objective of an awareness program on cyber security is to educate individuals and society about the risks and potential consequences of cyber-attacks, as well as the measures they can take to protect themselves.
- This may include providing information on the latest cyber security threats and trends, best practices to secure online behavior, and guidance on the implementation of effective cyber security measures.
- By raising awareness of these issues, individuals and society can better protect themselves against cyber threats and minimize the potential impact of any attacks that do occur.
